NOTES FOR DDCI

16 September 1964

25X1 1. Wanted you to know, prior to Gen. McConnell's visit on Friday, that [redacted] Air Branch Chief, has received his retirement orders from the Air Force. The orders came through loud, clear, and without qualifications or caveat of any kind. [redacted] are relieved and pleased. 25X1

2. We have received a copy of the report made by Cabot Lodge to the President following his tour of various world capitals in an effort to whip up enthusiasm and support for the war in Vietnam. Lodge paints a rather glowing picture of the promises made by various countries he talked to, but it is perhaps <sup>most</sup> remarkable for the rather mundane recommendations that Lodge makes to the President. They are three in number: (1) That USIA publicize through photographs and biographic articles all the young men from the various countries of the world who agree to go to Vietnam and that this publicity get emphasis in Vietnam and the U.S.; (2) An International Meeting of some kind be held in order to make an international declaration of encouragement for self-determination for Vietnam; and, (3) that the Government of Vietnam put up flag poles and flags "for all the different countries which have said that they would help around the big fountain at the big intersection on La Loi Street in front of the USIS in Saigon."

3. There is a little further word on that investigation of DIA by the JCS. We think that this is merely another annual JCS review of DIA. This time, however, the JCS seems intent upon making the inspection a little more high-powered than it has been in the past. Previous reports have apparently contained insignificant recommendations and the JCS apparently wants something meatier to chew on. 25X1

6. As you no doubt noted from cable traffic, [redacted] accomplished his briefing with [redacted] in good order. Ray has sent him a congratulatory message and the Director plans to meet with [redacted] for a personal rundown in [redacted].
